### THE VICAR WRITES ...

Over the past month it has been my privilege to sit alongside several local families who have been preparing for a Baptism, a Wedding or a Funeral.

These days, many couples feel uneasy about having a child Baptised if they are not regular church attendees, but still, they would like to mark the occasion in some way. A

**Service of Thanksgiving** is often very helpful and always takes place within a Sunday morning service when the baby is officially named, and prayers are said for the child and parents. It is a very simple, yet significant way to recognise the joy a new child brings to a family and, just like a Baptism, you can invite family and friends along to witness it.

**Baptisms** (or Christenings), of course, are for those parents who wish their child to be welcomed into the Church and want to state publicly that they wish to bring the child up as a Christian, and ask the church's help to do so through attending church services, St Denys Kids, and the various children's' and youth activities we are, and will be, offering. If you would like to discuss a Service of Thanksgiving, or a Baptism, Saturday mornings 10am-12noon at our Open House in church are an ideal time. This year we have 5 Weddings at St Denys and a Service of Blessing of a Civil Marriage. I take preparing couples for married life very seriously and offer couples resources to talk through together, in order to give them the best start to married life as possible.

Wedding preparation evenings with couples also enable us to tailor-make a service which expresses the personality of the couple, and their hopes and aspirations for their future married life together.

If you are thinking about **getting married**, or would like a **Service of Blessing** following a Civil Marriage, or would like to **Renew your Wedding Vows**, please feel free to contact me – again, Saturday mornings provide good, informal opportunities to do so.

Finally, when a loved one dies, it is often hard to decide what type of Funeral to have, what hymns/songs to choose, how to prepare a Eulogy and whether to have a Cremation or a Burial. Clergy have extensive experience in sitting down with families to help create a fitting service which celebrates the life of the deceased, and helps those who mourn to 'let go' and hand the person over to God. As your parish priest it is always my privilege to be available to families, especially in times of death. I shall be pleased to assist in any way, regardless of whether you want a church service or not. Please do call me at any time on 01367 710267 if you need such help. Since I was licensed just 2 month ago, it has been a great honour to help a number of families in the villages. I very much look forward to serving many more in the month and years to come.

Yours

Paul

#### STANFORD IN THE VALE NEIGHBOURHOOD WATCH

The hare coursing season continues. As well as ringing the police immediately if you see or suspect hare coursing is continuing, we have been asked to immediately report the registration numbers of any vehicles seen in the village which could be associated with this activity, eg 4x4s .... such as Subaru. The police already know the registration numbers of many crime associated vehicles, and your call could alert them to impending criminal activity in this area. Although we live in a low crime area – crimes still occur. Landrover vehicles are notoriously sought after for parts and are usually stolen to order. Please do everything you can to protect your vehicle, particularly at night. Catalysers are also being stolen for the valuable metals they contain.

Stanford in the Vale with Goosey and Hatford  
Newsletter May 2013

In Stanford in the Vale two incidents of criminal damage occurred at the church. A suspect for these crimes is currently being dealt with. At Charney Bassett there was forcible entry to two barns, and diesel was also stolen.

Many people don't realise that Neighbourhood Watch is an independent organisation. It is in close partnership with the police, who maintain the database of members, and put out some warnings and other information by email or phone. The primary aim of Neighbourhood watch is crime prevention – and this is achieved by creating small communities who look out and warn each other (and particularly the elderly or disadvantaged) of any possible criminal activity, as well as calling the police.

If you like to find out some more about Neighbourhood Watch, and the information and facilities it can offer have a look at: <http://www.tvnhwa.org.uk>

It also offers Smartwater (that can be used for ensuring property is always identifiable), and various personal and padlock alarms.

Some roads in Stanford still don't have a Neighbourhood Watch Coordinator. If you are interested, or want to know more, please contact me:-
